

**PRESS RELEASE October 4, 2019**

**LEWISTON - NEZ PERCE COUNTY AIRPORT**

The Nez Perce County Airport announces new security improvements and enhancements for 2020.

In keeping with Transportation Security Administration regulations, TSA has directed new requirements to be in place for continued airport operations area (AOA) access for all airport security badge holders.

The current badges have been in place for over a decade and require updating. These security enhancements will include new security software and computer processing. Additionally, the terminal and gate access will be enhanced for personnel and visitor access.

In partnership with the TSA, airport stakeholders and the airport community, we recognize the need in developing and putting in place these improvements better develop safe and secure operations for the airport.

Bill McKown, Airport Manager
